The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Misnumbered claims 57-75 been renumbered as claims 51-69, respectively, including claim dependency as appropriate. The renumbered claim numbers are utilized below.

#### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1 and 62-69, drawn to determining the level of one or more disease states in a subject, classified in class 435, subclass 4.
- II. Claims 51-59, drawn to diagnosis of a disease, classified in class 435, subclass 4.
- III. Claim 60, drawn to determination of the statistical level of a determined level of a disease state in an individual, classified in class 435, subclass 4
- IV. Claim 61, drawn to determination of the statistical significance of a level of the effect of therapy, classified in class 514, subclass 1.

The inventions are distinct, each from the other because of the following reasons:

The above four Groups are directed to distinct subject matter which would require separate searches. Group I is directed to disease level determination. Group II is directed to disease diagnosis. Group III is directed to statistics of the level of a

disease state determination. Group IV is directed to therapeutic statistical significance level determination. Thus, divergent subject matter is the direction of each Group which thus documents the undue search burden if searched together.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Papers related to this application may be submitted to Technical Center 1600 by facsimile transmission. Papers should be faxed to Technical Center 1600 via the PTO Fax Center located in Crystal Mall 1. The faxing of such papers must conform with the notices published in the Official Gazette, 1096 OG 30 (November 15, 1988), 1156 OG 61 (November 16, 1993), and 1157 OG 94 (December 28, 1993)(See 37 CFR § 1.6(d)).
